Message for 3-C Cardio Con 2008

We are pleased to announce the second international conference (in the 14th year of our Academics) from The Heart Care Clinic, the 3-C Cardio Con 2008 on 8th June, 2008, to be held in Ahmedabad.

'You must be the change you want to see in the world.'

- Mahatma Gandhi

We have to change if we want to see change in the world! And we have seen tremendous change in the medical world in the last many decades. One needs to be slow to form convictions, but once formed they must be defended against the heaviest odds. Our conviction has been and will be to educate ourselves and our colleagues continuously.

This decade the primary cause of mortality and morbidity in India has shifted from infectious diseases to cardiovascular and diabetic diseases. The 3-C Cardio Con 2008 will focus on the changing role of the family physician in the coming decade.

'If you think you know it all, you are less likely to learn more.'

The changing epidemiological trend has ensured that no family physician, doctors, nurses, medical professionals will trust that they know it all and all of us will keep on gaining new knowledge as and when it develops. Mahatma Gandhi supported this by saying: "True knowledge gives a moral standing and moral strength".

And moral standing and moral courage are our best assets in our goal of ethical medical practice.

Dr. Keyur Parikh
Conference Chairman

Dr. Milan Chag
Chair, Scientific Committee

If you are planning to attend the dinner. Please collect a separate DINNER COUPON from the HCC Booth during & after Lunch at Golden Hall (But before 4.30 pm)
